

TRUST BLUE

- Quality management certified to ISO 9001
 - A holistic quality, environmental and energy policy that is reviewed annually and successfully implemented within the company
 - Long-term relationships characterized by reliability and fairness
-

Quality “Made by PFERD”

Quality “Made by PFERD” means the most advanced, cost-effective and personal solutions for the application requirements of our customers.

Constant and safe work output can only be achieved if the tools also have a reliable quality. In order to ensure this, we develop, manufacture and check our products to meet the highest quality demands. Our Quality Management is certified to ISO 9001.

Environmental and energy policy

The responsible use of natural resources – particularly people, nature and the environment – is firmly inscribed in our principles. We regard the sustainable use of natural resources and economical use of energy as an obligation.

We are committed to steadily reducing consumption of materials and energy and to sustainably improving our company’s environmental performance and energy efficiency through the best possible use of resources and through the use of modern production technologies.

Social responsibility

The relationship with our employees is characterized by reliability, fairness and a commitment to social responsibility. We encourage and support technical competence, commitment and teamwork through targeted training and performance-based remuneration.

Relationships with our customers and suppliers are characterized by reliability and fairness. We place value on the development of long-term customer relationships which lead to partnerships.

We value and develop the quality of our locations, where we make targeted investments in our social and geographical environment.

PFERDERGONOMICS	<h1>PFERD VALUE</h1> <p>Your added value with PFERD</p>		PFERDEFFICIENCY

PFERDVALUE – Your added value with PFERD

Results from the PFERD test laboratories as well as from the product tests by independent testing institutes prove: PFERD tools offer measurable added value.
